Considerations		Details	
Access, Permissions and Security:		If nothing gets changed, I will have permission to film some training and game play on Wednesday 29th for the documentary.	
Access to power, Lighting, charging points:		There is no access to power, so I will have to take an extra battery for the camera. There will be natural lighting as it will be during the day.	
Noise and sound quality on location:		There will be a mic on the camera that picks up the audio from the day, however the footage might get muted so that the interview can play over it	
Set dressing and props:		There will be no props as i will just be filming the training and game	
Weather conditions:		If the weather is clear and sunny, there will be no problems. If the weather is bad, like rain or wind, then the audio will be unusable and the camera will have to be put in a protective cover.
