

# SWOT Analysis Infographics

## Strengths

What I found easy when writing the match report was writing down the events as I could write fast enough, then when it came to creating the match report, I was easily able to write about each event

## Opportunities

What I could have improved about my match report is the SPaG I used as when I was getting feedback, I found that I used a lot of unnecessary words and missed a lot of hyphens

## Weaknesses

What I found difficult about match reporting was knowing what to write about, as I'm looking at my notes after and most of what I wrote wasn't needed in the final report.

## Threats

When writing my notes, the things that affected me that were out of my control was the weather, as it was cold and windy and the team sheet was full of spelling mistakes of player names which could affect your job if you are a professional match reporter
